Murder at Jamestown

sew the quilt to solve the crime!

Choosing the fabric for your mystery quilt is part of the fun! Our finished quilt is a sampler-style, with blocks made using different techniques, all against a background of the same fabric across the body of the quilt.

Below, I have detailed the fabrics required to complete the quilt. The illustrations show solid-colored swatches to indicate the general color of the fabrics I have used for the master quilt I have constructed—these are a suggestion only, and are intended to help guide you as you make selections. You are by NO means expected or required to use these colors, this palette, or this cutting guide! Feel free to make your quilt as scrappy as you choose, as the design is very scrap-friendly; the background, however, is consistent across the quilt by design, and should remain a single fabric even if the remainder of the fabrics are scrappy. Yardages are given for each fabric, and include a little extra margin for mistake cuts or directional prints.

In addition, while these swatches indicate solid colors, I have primarily used small-scale prints in my own quilt. Feel free to use any prints you like, and even to tuck in some whimsical bits of fabric in various places (last year we had a delightful one made using fussy cuts of Scooby Doo fabrics, and another made entirely in shades of turquoise!).

BACKGROUND fabrics appear in almost every block. FEATURED fabrics appear at large scale in approximately 20% of the quilt top, and are a focus of the design. ACCENT fabrics appear in small cuts across the blocks, and many repeat in multiple blocks.

Remember to have fun choosing fabrics, and make a quilt you're going to love!
